

Dearest Mr Fisherman
Please listen to my plea
Don't discard your fishing line
Directly in the sea

It wraps around our flippers
It tangles dolphin fins
So when you've finished fishing
Chuck your lines into the bins

The Dyer Island Conservation Trust launched the Fishing Line Bin project in Gansbaai in 2010. The bins are sponsored by MacNeil Plastics in partnership with PlasticsSA, and the project is supported by municipalities and conservation organisations along the South African coastline. All bin locations are mapped by the Dyer Island Conservation Trust. Illustration by Martinus van Tee.
